

Ref: A02299 TYRE REPAIR KIT 300ML

For repairing tyres with or without inner tube.

- ✓ **Instant results**
- ✓ **Repairs and inflates the tyre without removal**
- ✓ **Practical, it fits in the car door pocket or glove compartment.**

APPLICATION

Ideal and very practical for unexpected punctures.

Liquid sealant for tyres with or without inner tube.

For temporary puncture repair.

RECOMMENDED FOR

- Vehicles, heavy goods vehicles: maintenance and renovation
- Garages
- Hire cars
- All industries using vehicles

INSTRUCTIONS FOR USE

Remove the object causing the puncture. Shake the can well. In cold weather, warm the can between your hands for several minutes. With the inflating valve in the 12 o'clock position, screw on the connecting tube.

Hold the can vertically and press on the button until the can is completely empty (approximately 1 minute). Immediately drive at least 5km at moderate speed to spread the product. Add pressure. Check the puncture 8 to 10 hours later.
