

Ref. A15501 PEST CONTROL 250ML KING DERM'ALPES

Treats infestations of insects such as itch mites and bed lice.

- ✓ **Treats up to 15m²**
- ✓ **Protection for up to 6 months**
- ✓ **Effective on insects at all stages of their development**

APPLICATION

Very effective dust mite treatment Effective on insects: itch mites, bed bugs and lice, at all stages of their development: larvae, nymphs and adults. Protection for up to 6 months

In addition to dust-mite allergy treatment for asthma, to rhinitis, conjunctivitis and lice infestations to prevent frequent recontamination by humans via clothing and bedding.

Use to treat bedding, clothing and fabric, carpet, wood flooring etc.

Professional product for schools, hospitals, hotels, self-catering, temporary accommodation, public venues, etc.

RECOMMENDED FOR:

- Cleaning companies
- Local authorities
- Insect-control companies
- Hotels and camping grounds
- Recreational centres

INSTRUCTIONS FOR USE

Spray on the surface from 30cm.

Let surfaces dry for at least 1 hour then air the room for at least 10 minutes.

Spray directly: 1 spray for 3 seconds is sufficient.
Surface treatment: 1 aerosol can cover approx. 15m².

For treating dust mites (including itch mites) and bed bugs:

Treat bedding, preferably in the morning. Apply product to uncovered mattress and pillows, bed frame and leave

to dry completely. Vacuum to remove all allergens then make bed with clean sheets and pillow cases (machine washed >60°).

For treating lice, fleas and other household insects: Treat fabric, carpet, wood flooring, etc. and anywhere insects pass or nest. Leave to dry. Vacuum to remove dead pests.

People suffering from asthma should leave the room to avoid respiratory irritation. Protect cold-blooded animals: cover cages, terrariums, aquariums and disconnect pump from power.

First test on very white fabric.

Protocol for use available on request.
